SUMMARY

Recent B.Tech CSE graduate (Fresher) with hands-on experience in developing responsive and dynamic web applications. Proficient in React, Redux, JavaScript, Node.js, Express.js, MongoDB, and full-stack development, including API integration and ensuring seamless user experiences. Eager to contribute to a fast-paced development team and build innovative software solutions.

EDUCATION

Kashi Institute Of Technology

2021 – 2025

B. Tech - Computer Science and Engineering - **CGPA - 7.0**

Varanasi, India

CAV Inter College

2021

Intermediate - **Percentage - 77%**

Prayagraj, India

SS Public School

2018

High School - **Percentage - 71%**

Varanasi, India

COURSEWORK / SKILLS

- | | | | |
|--------------------------------|---------|--------|-------------------|
| • Data Structures & Algorithms | • C,C++ | • HTML | • Web Development |
| | • CSS | • JS | • TailwindCSS |

PROJECTS

Blog App 📄 | React , Appwrite , Redux Toolkit , Redux , Node.js

DEC 2024

- Built a dynamic , full-stack blog application using a modern tech stack. The frontend, developed with React and Redux Toolkit for state management, ensures an interactive user experience. Appwrite handled authentication and database management, while Node.js supported server-side logic. Key features include secure user authentication, real-time updates, and full CRUD (Create, Read, Update, Delete) operations for blog posts. The UI is optimized for responsiveness and performance across devices..
- [Source Code Here](#)

Currency Exchanger App 📄 | React , Exchange Rate API , Redux , Node.js

OCT 2024

- Developed a real-time currency exchange application. Key features include live data feed integration, robust user input handling, and sophisticated conversion algorithms for accurate and timely exchange rates. The application utilizes external APIs and Redux for efficient state management, ensuring seamless user experience with intuitive navigation and optimized performance.
- [Source Code Here](#)

Password Manager 📄 | React , React-Router-Dom , TailwindCSS , Node.js

SEPT 2024

- Created a secure password manager using advanced encryption to protect sensitive data like usernames, passwords, and URLs. Integrated Redux for efficient state management, improving performance and ensuring data integrity. Designed a responsive interface with TailwindCSS, enhancing the user experience.

INTERNSHIP

QSpiders

15/07/2024 – 30/08/2024

Web Developer

Noida , India

- Completed a 45-day internship specializing in MERN stack development.
- Built responsive front-end applications with React.js, enhancing user experience.
- Built back-end services with Node.js/Express.js and managed MongoDB databases.
- Integrated RESTful APIs to connect front-end (React) and back-end.
- Optimized code for performance and collaborated using Git in an Agile environment.

TECHNICAL SKILLS

Languages: C, C++, JavaScript

Developer Tools: VS Code

Technologies/Frameworks: GitHub, ReactJS, Redux, NodeJS, ExpressJS, Mongo
